## **EXOCH FILTER**<sup>®</sup> PURE PERFORMANCE

# DuraMAX<sup>™</sup> 4vS

High Efficiency Synthetic Media Minipleat Filters

#### **Features**

- Synthetic filter media
- Low pressure drop reduces energy costs
- Extended filter life
- All-plastic frame construction
- MERV 15 (95% efficiency)
- Incinerable
- Engineered versatility- excellent filtration in any application

#### Low resistance to airflow and lower energy costs

**DuraMAX 4vS** provides an unequaled combination of low pressure drop and high efficiency through the use of our unique minipleat design. The **DuraMAX 4vS** contains 194 square feet of synthetic filter media in a standard 24x24x12" frame to help insure a low pressure drop, which in turn helps to lower energy costs to the user.

#### Synthetic filter media

**DuraMAX 4vS** is constructed with durable, dual-layer synthetic air filter media<sup>\*</sup> designed specifically for high efficiency air filtration applications. The rugged composition of the synthetic media makes the **DuraMAX 4vS** an ideal choice for high velocity or high moisture systems, such as Gas Turbines Air Intakes.

### DuraMAX filters offer extended filter life

The high capacity minipleat design of the **DuraMAX 4vS** insures high dust holding capacity and extended filter lifecycles. Fewer filter changes means reduced disposal costs and lower overall cost of ownership.

#### **DuraMAX filters offer engineered versatility**

The **DuraMAX 4vS** is designed to meet the wide range of requirements found in today's position of complex air filtration systems. The 4vS is constructed with a durable all-plastic frame that can be completely incinerated. Standard **DuraMAX 4vS** filters are UL rated. The **DuraMAX 4vS** can be reverse-installed in applications with space limitations.

Nominal Size	Initial Pressure Drop @500 FPM (in. wg.)	Recommended Final Pressure Drop	Media Area sq. ft.
24x24x12	.28	2.0	194
20x24x12	.28	2.0	162
12x24x12	.28	2.0	98

\* Performance and MERV data is based on ASHRAE Test Standard 52.2-2007

\*Please see Bulletin No. K-996B for information on our popular original DuraMAX 4v, constructed with microfiberglass.
